## **NOTES TO THE FINANCIAL STATEMENTS**

### **1 GENERAL**

The Company was incorporated in the Cayman Islands on 11 May 2015 as an exempted company with limited liability under the Companies Law, Cap 22 (Law 3 of 1961, as consolidated and revised) of the Cayman Islands. The address of the Company's registered office is Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman, KY1-1111, Cayman Islands. The Company has established a place of business in Hong Kong at 5/F, AIA Financial Centre, 112 King Fuk Street, San Po Kong, Kowloon, Hong Kong.

The Company is an investment holding company. The Group is principally engaged in sales of apparel products with the provision of supply chain management total solutions to customers. The ultimate holding company of the Company is Alpha Direct Investments Limited ("Alpha Direct").

The shares of the Company (the "Share(s)") were listed on GEM by way of placing (the "Listing") on 7 October 2015 (the "Listing Date") and have been transferred to the Main Board of The Stock Exchange of Hong Kong Limited (the "Stock Exchange") on 27 September 2017.

### **2 BASIS OF PREPARATION**

The unaudited condensed consolidated financial statements for the six months ended 30 September 2019 (the "Interim Financial Information") have been prepared in accordance with Hong Kong Accounting Standard 34 "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and the applicable disclosure provisions of the Rules Governing the Listing of Securities on the Stock Exchange (the "Listing Rules"). The Interim Financial Information has been prepared under the historical cost convention and is presented in Hong Kong Dollars ("HK\$"), and all values are rounded to the nearest thousand except when otherwise indicated.

The Interim Financial Information does not include all of the information and disclosures required in annual financial statements in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"), which comprises all applicable individual Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards and Interpretations issued by the HKICPA, and should be read in conjunction with the Group's annual financial statements for the year ended 31 March 2019.

The preparation of the Interim Financial Information requires the Company's management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

In preparing the Interim Financial Information, the significant judgments made by the Company's management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the Group's annual financial statements for the year ended 31 March 2019.

### **3 ACCOUNTING POLICIES**

Except for the adoption of the following new and revised HKFRSs issued by the HKICPA, which are effective for the Company's financial year beginning on 1 April 2019, the accounting policies applied in preparing the Interim Financial Information are consistent with those of the annual financial statements for the year ended 31 March 2019, as described in the Company's annual report for the year ended 31 March 2019. The Directors anticipate that the application of these new and revised HKFRSs will not have material impact on the Interim Financial Information. The Group has not early adopted any new and revised HKFRSs that have been issued by the HKICPA but are not yet effective.

## **HKFRS 16 ‘Leases’**

The Group is a lessee of its office, staff quarter and warehouse. The Group has changed its accounting policies for leases with effect from 1 April 2019 as a result of adopting the new lease accounting standard HKFRS 16. The Group has taken transitional provisions and methods not to restate comparative information for prior periods. The comparative information continues to be reported under the accounting policies prevailing prior to 1 April 2019. The adoption of HKFRS 16 has resulted in an approximately HK\$0.2 million decrease in the opening balance of total equity on 1 April 2019.

### ***New definition of a lease***

Under HKFRS 16, a contract is, or contains a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration. Control is conveyed where the customer has both the right to obtain substantially all of the economic benefits from the use of the identified asset and the right to direct the use of the identified asset.

### ***Lessee accounting***

The Group has lease contracts for office, staff quarter and warehouse. As a lessee, the Group previously classified leases as operating leases. Under HKFRS 16, the Group applies a single approach to recognize and measure right-of-use assets and lease liabilities for all leases, except for two elective exemptions for leases of low value assets (elected on a lease by lease basis) and short-term leases (elected by class of underlying asset). The Group has elected not to recognize right-of-use assets and lease liabilities for (i) leases of low-value assets; and (ii) leases, that at the commencement date, have a lease term of 12 months or less. Instead, the Group recognizes the lease payments associated with those leases as an expense on a straight line basis over the lease term.

Where the lease is capitalised, the lease liability is initially recognised at the present value of the lease payments payable over the lease term, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, using a relevant incremental borrowing rate. After initial recognition, the lease liability is measured at amortised cost and interest expense is calculated using the effective interest method. Variable lease payments that do not depend on an index or rate are not included in the measurement of the lease liability and hence are charged to profit or loss in the accounting period in which they are incurred.

The right-of-use asset recognised when a lease is capitalised is initially measured at cost, which comprises the initial amount of the lease liability plus any lease payments made at or before the commencement date, and any initial direct costs incurred. Where applicable, the cost of the right-of-use assets also includes an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, discounted to their present value, less any lease incentives received.

The right-of-use asset is subsequently stated at cost less accumulated depreciation and impairment losses.

The lease liability is remeasured when there is a change in future lease payments arising from a change in an index or rate, or there is a change in the Group’s estimate of the amount expected to be payable under a residual value guarantee, or there is a change arising from the reassessment of whether the Group will be reasonably certain to exercise a purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

### ***Impacts on transition***

#### ***(a) Reconciliation from lease commitments to lease liabilities***

To ease the transition to HKFRS 16, the Group elected not to apply the requirements of HKFRS 16 in respect of the recognition of lease liabilities and right-of-use assets to leases for which the remaining lease term ends within 12 months from the date of initial application of HKFRS 16, i.e. where the lease term ends on or before 31 March 2020.

Set out below is a reconciliation of the operating lease commitments disclosed at 31 March 2019 to lease liabilities recognised on 1 April 2019:

	1 April 2019 HK\$'000
Operating lease commitments at 31 March 2019	7,642
Less: commitments relating to leases exempt from capitalisation:	
— short-term leases and other leases with remaining lease term ending on or before 31 March 2020	(449)
	7,193
Less: total future interest expenses	(255)
	6,938
Present value of remaining lease payments, discounted using the incremental borrowing rate at 1 April 2019	<u>6,938</u>

(b) *Opening consolidated statement of financial position on 1 April 2019*

The Group has initially applied HKFRS 16 with effect from 1 April 2019. On adoption, the Group recognised lease liabilities in relation to leases which had previously been classified as operating leases under the principles of HKAS 17 Leases. These liabilities were measured at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate as of 1 April 2019. The weighted average incremental borrowing rate applied to the Group's lease liabilities on 1 April 2019 was 3.63%.

The following table summarises the impacts of the adoption of HKFRS 16 on the Group's consolidated statement of financial position:

	Carrying amount at 31 March 2019 HK\$'000 (audited)	Effect on adoption of HKFRS 16 HK\$'000 (unaudited)	Carrying amount at 1 April 2019, as adjusted HK\$'000 (unaudited)

On 15 August 2019, a total of 52,821,000 share options were granted under the share option scheme of the Company (the “Share Option Scheme”) with no vesting period. The respective exercise price of the share options granted is HK\$0.476 per share (32,591,000 share options) and HK\$0.50 (20,230,000 share options).

Name	Position held/relationship with the Company	Number of share options granted

The above exercise price is not lower than the highest of (i) the closing price of HK\$0.46 per share as quoted in the Stock Exchange’s daily quotation sheet on the grant date; and (ii) the average closing price of HK\$0.476 per share as quoted in the Stock Exchange’s daily quotation sheets for the five business days immediately preceding the grant date.

During the six months ended 30 September 2019, there was no exercise, lapse or cancellation of share options (six months ended 30 September 2018: nil).

As at 30 September 2019, the share options outstanding having an exercise price of HK\$0.482 will expire on 27 October 2027, the share options outstanding having an exercise price of HK\$0.425 will expire on 27 April 2028 and the share options outstanding having an exercise price of HK\$0.476 and HK\$0.5 will expire on 15 August 2022.

### Fair value of share options and assumptions

The fair value of the share options granted during the six months ended 30 September 2019 were derived from Binomial option pricing model by applying the following bases and assumptions:

	Share options granted to	
	Ms. Jiang, Mr. Yu and Mr. Li	External consultants
Grant date	15/8/2019	15/8/2019
Number of options granted	32,591,000	20,230,000
Option life ( <i>Note (i)</i> )	3 years	3 years
Risk-free rate ( <i>Note (ii)</i> )	1.402%	1.402%
Volatility ( <i>Note (iii)</i> )	30.57%	30.57%
Dividend yield	0%	0%
Fair value per share option at grant date	HK\$0.0760	HK\$0.0886
Total fair value for each batch	HK\$2,477,000	HK\$1,792,000

Notes:

- (i) The option life was determined with reference to the expiry date of the Share Options Scheme and the estimation on expected retirement date of the respective individuals and probability of contract renewal with the external consultants by management.

- (ii) The risk-free rate was determined with reference to the yield of Hong Kong Government Exchange Fund Notes with a maturity life equal to the time to maturity of the share options at the grant date.
- (iii) The volatility of the share options was calculated based on the daily stock prices of the comparables companies. The length of period approximately equals to the time to maturity of the share options at the grant date.

The fair value of the share options granted during the six months ended 30 September 2019 has been arrived on the basis of a valuation carried out at the grant date by an independent valuation service provider. The fair value of the share options are subject to the limitations of the Binomial option pricing model and a number of assumptions which are subjective and difficult to ascertain. Changes in the subjective input assumptions could materially affect the fair value estimate. The weight average fair value of share options granted during the six months ended 30 September 2019 determined using the Binomial option pricing model was HK\$0.081 per share option (six months ended 30 September 2018: HK\$0.162).

The outstanding share options as at 30 September 2019 had a weighted average remaining contractual life of 6.48 years (31 March 2019: 8.88 years).

At 30 September 2019, the Company had 152,821,000 (31 March 2019: 100,000,000) share options outstanding under the Share Options Scheme, which represented approximately 13.6% (31 March 2019: 8.9%) of the Company's shares in issue at that date. Share options do not confer rights on the holders to dividends or to vote at shareholder's meetings.

## MANAGEMENT DISCUSSION AND ANALYSIS

### BUSINESS REVIEW

The Group engages in sales of apparel products with the provision of supply chain management total solutions to customers.

For the six months ended 30 September 2019, the Group recorded an increase in revenue of approximately 0.4% and a decrease in gross profit margin of approximately 9.5% as compared with that for the six months ended 30 September 2018. The Group recorded an increase in loss and total comprehensive loss attributable to owners of the Company for the six months ended 30 September 2019 by approximately HK\$44.2 million compared to that for the six months ended 30 September 2018. The increase in the loss and total comprehensive loss attributable to owners of the Company for the six months ended 30 September 2019 was mainly attributable to losses on sales of financial assets at fair value through profit or loss (“FVTPL”) of approximately HK\$34.3 million and a decline of approximately 9.5% of the gross profit margin of the Group for the six months ended 30 September 2019 as compared to same period last year due to lower sales due to difficult trading environments in certain markets. The Group recorded losses on sales of financial assets at FVTPL of approximately HK\$34.3 million and fair value losses on financial assets at FVTPL of approximately HK\$3.5 million due to negative returns from investments on securities for the six months ended 30 September 2019.

Despite maintaining a similar level of revenues to the same period last year, the Group recorded a drop in gross profit margin compared to the same period last year due to: (1) losses in market share in America reflecting the Group’s difficult trading environment resulting from the increases in tariffs associated with the ongoing trade war between America and China. This has resulted in certain customer’s diversifying away from some product categories that required high levels of design and complexity which generate relatively higher margin; (2) adopting more competitive pricing strategy so as to attract new customers and diversify into more sources of revenues from Europe; and (3) further diversifying sourcing from China to South East Asia due to the increase in tariffs from the US China trade wars which lowered margins.

On 27 September 2017, the Shares were listed on the Main Board of the Stock Exchange by way of transfer of listing from GEM to the Main Board of the Stock Exchange (the “Transfer of Listing”). The Transfer of Listing did not involve the issue of any new Shares. The Board believes that the Transfer of Listing will improve the liquidity of the Shares and enhance the profile of the Group. The Board considers that the Transfer of Listing will be beneficial to the future growth and business development of the Group as well as its financing flexibility.

## **FINANCIAL REVIEW**

### **Revenue**

The Group's revenue increased to approximately HK\$132.7 million for the six months ended 30 September 2019 from approximately HK\$132.2 million for the six months ended 30 September 2018, representing an increase of approximately 0.4%. Although the Group was able to maintain similar revenues compared to the same period as last year, the proportion of revenues from Americas has decreased due to the increases in tariffs from the US China trade wars.

### **Cost of sales**

The Group's cost of sales primarily consists of cost of goods sold, employee benefit expenses and other direct costs. The cost of sales increased to approximately HK\$122.6 million for the six months ended 30 September 2019 from approximately HK\$109.6 million for the six months ended 30 September 2018, representing an increase of approximately 11.9%. The Group's cost of sales increased due to diversification of production sources away from China which were more costly due to the increases in tariffs from the US China trade wars.

### **Gross profit and gross profit margin**

The Group's gross profit decreased to approximately HK\$10.1 million for the six months ended 30 September 2019 from approximately HK\$22.6 million for the six months ended 30 September 2018, representing a decrease of approximately 55.3%. The Group's gross profit margin decreased by approximately 9.5% from six months ended 30 September 2018 to approximately 7.6% for the six months ended 30 September 2019. In order to maintain and seek for chances of expansion for the Group's market share, the Group offered competitive pricing for greater portion of its sales, which diluted the effect of sales with higher gross profit margin by providing both high quality designs and innovative total supply chain solutions during the six months ended 30 September 2019. In addition, with the loss of significant high margin sales to customers in the Americas due to the increases in tariffs from the US China trade wars as well as diversification away from China production, the Group's gross profit margins suffered downward pressure.

### **Selling expenses**

Selling expenses mainly consist of sales commission paid to external sales representatives and staff costs of in-house staff whose roles are mainly focused on sourcing new customers. Selling expenses increased to approximately HK\$3.5 million for the six months ended 30 September 2019 from approximately HK\$3.4 million for the six months ended 30 September 2018, representing an increase of approximately 2.9%. The slight increase in the Group's selling expenses was mainly attributable to increases in freight charges.

General and administrative expenses decreased to approximately HK\$16.5 million for the six months ended 30 September 2019 from approximately HK\$20.6 million for six months ended 30 September 2018, representing a decrease of approximately 19.9%. Such decrease was mainly due to a lower non-cash expenses for share based payment of approximately HK\$4.3 million for the six months ended 30 September 2019 compared to HK\$9.7 million for the six months ended 30 September 2018.

## **Loss and total comprehensive loss attributable to owners of the Company**

Loss and total comprehensive loss attributable to owners of the Company increased to approximately HK\$47.5 million for the six months ended 30 September 2019 from approximately HK\$3.3 million for the six months ended 30 September 2018, representing an increase of approximately HK\$44.2 million. Such increase reflects the significant tough economic and trading environment which resulted in loss in sales from customers in America, one-off legal and professional fee incurred related to the acquisition of two subsidiaries which has been completed on 11 November 2019, non-recurring losses on sales of securities investments and non-cash share based payment expenses incurred during the six months ended 30 September 2019. The loss and total comprehensive loss attributable to owners of the Company for the six months ended 30 September 2019 after adjusting for aforesaid one-off expenses was approximately HK\$8.4 million.

The Group's current ratio decreased from approximately 12.8 as at 31 March 2019 to approximately 3.0 as at 30 September 2019. Such decrease was mainly attributable to the increase in current liabilities during the six months ended 30 September 2019.

Gearing ratio is calculated by dividing total debts by total equity as at the end of the period. The Group's gearing ratio increased from approximately 0.06 times as at 31 March 2019 to approximately 0.43 times as at 30 September 2019 which was mainly attributable to an increase in total debts and decrease in total equity during the six months ended 30 September 2019.
